

As Amanda wishes for her dad to enjoy good meals, make new friends, and return safely from his deployment, her little wishing tree comes to life with yellow ribbons of hope.

It Starts With a Wish!

Wishing trees can be created to host many kinds of wishes! You can wish, hope, pray, or dream for others who are less fortunate, the safety or good health of a friend or family member, goals and dreams for your future, places you'd like to travel, or good wishes for a newly married couple, new parents, grandparents, and many more.

To write on your special wish ribbons, use a ball-point pen or a sharp pencil or crayon and write on the nonshiny side. Then tie your wish ribbon to your wishing tree.
